Sam: What's up? You look down.

Lily: I want to get thin. I eat only two meals a day. I even get heavy. Besides, I'm getting more tired than before.

Sam: You shouldn't do this. If you want to look slim, you have to look for the right tips for losing weight. First, you have to eat regularly. Eat less, but eat at least three meals a day. More vegetables and fruit can help you a lot, too. Remember not to have any drinks with sugar.

Lily: I see. What else?

Sam: Exercise half an hour at least three times a week. Finally, going to bed before 11:00 p.m. is also important.

Lily: I got it. I'll give it a try.

Sam: Losing pounds takes time. It will work in one or two months.

Lily: Thanks a lot.

(34~35)

What animals are the closest to human beings? The answer is chimps. But in fact, chimps have a smaller size than human beings. At most, they can only be as tall as 120 cm and as heavy as 50 kg. That is the same size as a teenager.

Although chimps are smaller in size, they are a lot faster than human beings. When they move, they use both their arms and legs. Unlike human beings, chimps' arms are longer than their legs. Because of this, chimps are very good at climbing trees. As for walking, chimps can do it, too. But they walk in a different way. Moreover, human beings hold up their babies with palms, but chimps use their knuckles. Chimps' fingers are shorter than human beings', but they are very strong and have great power.

Most chimps have a shorter life than human beings. But if human beings take good care of them, they can live ten more years.
