三、閱讀理解 (每題 2 分)

Long time ago in Greece, a young man named Narcissus was so handsome that every girl had a crush on him. However, he always broke their hearts and that made Venus, the goddess of love, very angry. She wanted to punish the young man by making him fall in love with someone he could never reach. One day, while walking by the riverbank, Narcissus wanted to drink some water from the river. When he looked down the river, he saw a handsome young man in the water and fell in love with the man right away. Narcissus asked him who he was and where he was from, but the man didn't say a word.

Day after day, Narcissus went to the riverbank to talk to the handsome man, yet he still didn't say anything. Narcissus was not happy. Finally, when Narcissus was trying to reach the young man, he fell into the river and drowned. A few days later, a beautiful flower grew from the river where Narcissus drowned. People thought that the flower was Narcissus — the man who fell in love with himself.

White Valley was my favorite place when I was a little boy. It was famous for its milk ice cream. There were lots of people waiting for the ice cream on summer days at that time. I often went there with my sister after school. In my memory, we chatted, laughed, and had a great time there. It was such a good place then.

Now, it is still full of people, but people don't go there for the ice cream. It is an ice cream museum now. People go there just because they want to know the history of ice cream.

After so many years, I still miss the smell of White Valley. Every time I go there, I always think of the old and beautiful time when I was young.
